

MED AI THON 2026 — Rule Book

1. About the Hackathon

MED AI THON 2026 is a **50-Hour's Medtech Makeathon** that brings together students from different engineering disciplines to develop innovative technology-driven solutions for real-world healthcare challenges.

The final hackathon will be conducted on:

24th, 25th & 26th October 2026

Trichy SRM Medical College Hospital and Research Centre

Participants will work on healthcare-focused problem statements combining engineering, technology, innovation, and medical applications.

2. Eligibility

1. MEDAITHON is open to **students from any engineering discipline**.
2. Students from different engineering departments can form a team.
3. Each team must consist of **a maximum of 3 members**.
4. A team may consist of:
 - 1 member
 - 2 members
 - 3 members
5. Cross-department and interdisciplinary teams are permitted.
6. Each participant must provide accurate academic and personal information during registration.
7. Participants must carry valid student identification during the final hackathon.

3. Team Formation

1. A maximum of **3 participants** can register as one team.
2. Each team must nominate one member as the **Team Leader**.
3. The Team Leader will be the primary point of communication with the MED AI THON organizing team.
4. Once the registration deadline has passed, **team-member changes may not be permitted** unless approved by the organizing committee.
5. Participants should not register as members of multiple teams

4. Problem Statements

1. The team will be provided **five official problem statements** for the first round.
2. Teams must select **one problem statement** to work on.
3. The proposed solution must directly address the selected problem statement.
4. Teams are encouraged to develop solutions involving areas such as:

Artificial Intelligence & Machine Learning - Internet of Things - Robotics - Healthcare Technology - Biomedical Engineering - Data Science - Software & Mobile Applications - Medical Devices - Automation - Other relevant engineering technologies

5. Idea Submission — PPT Round

A **standard PowerPoint template** will be provided

Teams must:

1. Download/use the **official MEDAITHON PowerPoint template**.
2. Follow the prescribed slide structure.
3. Address the selected problem statement clearly.
4. Explain their proposed solution and its implementation.
5. Submit the completed presentation before the specified deadline.

Teams should not substantially alter the prescribed template unless specifically permitted by the organizers.

The Participants should Upload the PPT in the google drive and share the link Make sure that the access is open and the PPT is viewable

6. Submission Guidelines

1. Only submissions made through the **official MEDATHON submission channel** will be considered.
2. Submissions must be made before the announced deadline.
3. Late submissions may not be accepted.
4. Teams are responsible for verifying that their submitted file is:
5. Teams should retain a copy of their submitted presentation for future reference.
6. Once submitted, changes may not be permitted after the deadline.

7. Selection of Finalists

The submitted ideas will undergo an evaluation process by the MEDATHON evaluation committee.

Based on the evaluation, the **Top 50 teams** will be shortlisted for the final round.

Important:

- Selection will be based on the quality of the submitted idea and its alignment with the selected problem statement.
- Shortlisting decisions made by the evaluation committee will be considered final.
- Registration does not guarantee selection for the final hackathon.
- Only shortlisted teams will be eligible to participate in the 50-hour final round.
- The List of shortlisted teams will be published in the Official website.
- Each of the Selected team will be clubbed with 2 more Participants from Medical Stream before the commencement of Event on 24th of October
- The medical/healthcare student will work alongside the technical participants to understand the healthcare problem and develop the solution.
- Problem statements for MEDAITHON 2026 will be revealed only after the finalist teams are formed on the spot.
- Participants must collaborate effectively with their assigned team members throughout the Final Round.
- Scoring will based on both individual Performance Score and team score
